O‘ZBEKISTON RESPUBLIKASI OLIY TA’LIM, FAN VA INNOVATSIYALAR VAZIRLIGI

MIRZO ULUG‘BEK NOMIDAGI O‘ZBEKISTON MILLIY UNIVERSITETINING JIZZAX FILIALI

ZAMONAVIY INNOVATSION TADQIQOTLARNING DOLZARB MUAMMOLARI VA RIVOJLANISH TENDENSIYALARI: YECHIMLAR VA ISTIQBOLLAR

mavzusidagi Respublika ilmiy-texnik anjuman materiallari to‘plami

(2024-yil 17-18-may)

(2-qism)

JIZZAX-2024

“Zamonaviy innovatsion tadqiqotlarning dolzarb muammolari va rivojlanish tendensiyalari: yechimlar va istiqbollar” mavzusidagi Respublika ilmiy-texnik anjuman materiallari to‘plami – Jizzax: O‘zMU Jizzax filiali, 2024-yil 17-18-may. 461-bet.

Respublika miqyosidagi ilmiy-texnik anjuman materiallarida zamonaviy innovatsion tadqiqotlarning dolzarb muammolari va rivojlanish tendensiyalari sohasidagi innovatsion tadqiqotlar aks etgan.

Globallashuv sharoitida davlatimizni yanada barqaror va jadal sur’atlar bilan rivojlantirish bo‘yicha amalga oshirilayotgan islohotlar samarasini yaxshilash sohasidagi ilmiy-tadqiqot ishlariga alohida e’tibor qaratilgan. Zero iqtisodiyotning, ijtimoiy sohalarni qamrab olgan modernizatsiya jarayonlari, hayotning barcha sohalarini liberallashtirishni talab qilmoqda.

Ushbu ilmiy ma’ruza tezislari to‘plamida mamlakatimiz va xorijlik turli yo‘nalishlarda faoliyat olib borayotgan mutaxassislar, olimlar, professor-o‘qituvchilar, ilmiy tadqiqot institutlari va markazlarining ilmiy xodimlari, tadqiqotchilari, magistr va talabalarning ilmiy-tadqiqot ishlari natijalari mujassamlashgan.

Mas’ul muharrirlar: DSc.prof. Turakulov O.X., PhD. O‘ralov A.I.

Tahrir hay’ati a’zolari: p.f.d.(DSc), prof. Turakulov O.X., b.f.f.d. (PhD) O‘ralov A.I., t.f.f.d.(PhD), dotsent Abdumalikov A.A., t.f.n., dots. Baboyev A.M., t.f.f.d.(PhD), dots. Abduraxmanov R.A., p.f.f.d.(PhD) Eshankulov B.S., p.f.n., dots. Alimov N.N., p.f.f.d.(PhD), dotsent Alibayev S.X., p.f.f.d. (PhD) Halimov O‘.H., p.f.f.d.(PhD), dotsent Karshiyev A.A., f.f.f.d.(PhD), dotsent Sindorov L.K., t.f.f.d. (PhD), dotsent Nasirov B.U., b.f.f.d. (PhD), dotsent Mustafaqulov M.A., f.f.f.d. (PhD) Alibekov D.A.., f-m.f.f.d. (PhD) Sharipov X.F., ps.f.f.d.(PhD) Norbekova B.Sh., i.f.n., dots. Tsoy M.P., Qayumov O.A., Jo‘rayev M.M.

Mazkur to‘plamga kiritilgan ma’ruza tezislarining mazmuni, undagi statistik ma’lumotlar va me’yoriy hujjatlarning to‘g‘riligi hamda tanqidiy fikr-mulohazalar, keltirilgan takliflarga mualliflarning o‘zlari mas’uldirlar.

to explore, create, and collaborate in entirely new ways. However, realizing the full potential of AI in education requires addressing technical, ethical, and policy challenges, as well as fostering collaboration and dialogue among stakeholders.

Conclusion:

In conclusion, AI has the potential to revolutionize education, empowering tomorrow's learners and preparing them for success in an increasingly digital and interconnected world. By leveraging AI-powered educational technologies, educators can create personalized learning experiences that meet the diverse needs of students, improve learning outcomes, and foster innovation in teaching practices. However, the widespread adoption and integration of AI in education also present challenges and considerations that must be addressed, including data privacy concerns, bias in algorithms, and ethical considerations.

IMPACT OF PERSONALIZED LEARNING ON STUDENT ENGAGEMENT AND ACADEMIC PERFORMANCE: A COMPREHENSIVE ANALYSIS

Dr Aajaz Ahmed Hajam,
Dr Tursunqulov Inom Abdukhalilovich,
Shukurov Rustam Ergash ugli
Sambhram University Jizzax Uzbekistan

Abstract. This research paper investigates the impact of personalized learning on student engagement and academic performance across diverse educational contexts. The study employs a mixed-methods approach, combining quantitative analysis of student performance data with qualitative insights from educators and students. Data collection includes pre- and post-intervention assessments, surveys, interviews, and classroom observations to provide a comprehensive understanding of the effects of personalized learning strategies.

Keywords: Personalized learning approaches , Academic Performance .

Introduction

In contemporary education, personalized learning has emerged as a transformative approach aimed at enhancing student engagement and academic achievement. This shift reflects a departure from traditional, one-size-fits-all instructional methods towards tailored learning experiences that meet individual student needs and preferences. The rationale for this study lies in the growing recognition of the importance of student-centered approaches and evidence-based practices in education Lee et al (2018).

The research aims to explore the Impact of personalized learning on student engagement and academic performance through a multi-faceted analysis. By investigating the effects of personalized learning strategies, identifying best practices, and understanding stakeholder perspectives, this study seeks to contribute valuable insights to educational theory and practice.

Literature Review

The literature on personalized learning underscores its potential to positively impact student engagement and academic performance. Research by Afini Normadhi et. Al (2019) highlights that personalized learning approaches, such as adaptive learning systems and individualized learning paths, significantly improve student motivation and active participation. Additionally, studies by Aka, E. I. (2020) demonstrate that personalized learning fosters deeper understanding and mastery of content, leading to enhanced academic achievement.

Furthermore, technology integration plays a crucial role in personalized learning initiatives. Lin et al(2013)emphasize the importance of data-driven decision-making and the use of learning analytics to personalize instruction effectively.

Teacher roles and professional development are also key factors in successful personalized learning implementations. Educators need training in pedagogical strategies, technology integration, and data interpretation to effectively design and implement personalized learning experiences Schmid et al,(2019). Collaborative teaching practices and ongoing professional development contribute to sustained improvements in student outcomes

Moreover, personalized learning fosters a culture of continuous feedback and reflection, promoting metacognitive skills and self-regulated learning Moos, D. C., & Bonde, C. (2016) and stressed the importance of equity and inclusion in personalized learning initiatives, emphasizing the need to address disparities and ensure that all students benefit from personalized learning approaches.

Factors impacting academic performance of students:

1. Key Elements of Personalized Learning:

Adaptive Learning: Tailoring learning experiences based on individual student needs, pace, and learning styles.

Individualized Learning Paths: Providing students with personalized pathways to mastery based on their strengths, weaknesses, and interests.

Technology Integration: Leveraging educational technology tools, such as learning management systems and intelligent tutoring systems, to facilitate personalized learning experiences. Mousavinasab et. al (2018)

Data Analytics: Utilizing learning analytics to track student progress, identify areas for improvement, and make data-informed instructional decisions.

2. Mechanisms of Student Engagement:

Intrinsic Motivation: Encouraging students' internal drive to learn through autonomy, mastery, and purpose.

Interest and Relevance: Connecting learning experiences to students' interests, real-world applications, and personal goals.

Active Participation: Fostering collaboration, discussion, problem-solving, and hands-on learning activities.

Feedback and Reflection: Providing timely and constructive feedback, promoting metacognitive skills, and encouraging self-assessment and reflection. Park, S., & Jun, H. (2017).

3. Indicators of Academic Performance:

Standardized Test Scores: Measuring students' proficiency and mastery of academic content through standardized assessments.

Grades and Course Completion Rates: Assessing students' progress, achievement levels, and successful completion of learning objectives.

Deep Understanding and Retention: Evaluating students' ability to apply knowledge, analyze information, and demonstrate conceptual understanding over time.

Methodology:

The research methodology employed a mixed-methods approach to comprehensively investigate the impact of personalized learning on student engagement and academic performance. The study was conducted in collaboration with Sambhram University Jizzax Uzbekistan ,involving 50 students and 20 educators across Assistant Professors , Associate Professors

Participants were selected based on criteria such as willingness to participate, diversity in academic backgrounds, and representation across different classrooms or subjects. Informed consent was obtained from all participants, ensuring ethical considerations were upheld throughout the study.

Data collection included pre- and post-intervention assessments to measure changes in student engagement and academic performance. Surveys were administered to gather feedback from students and educators regarding their experiences with personalized learning. Interviews and classroom observations provided qualitative insights into the implementation process, challenges faced, and successful strategies employed.

Quantitative data analysis involved statistical tests to compare pre- and post-intervention performance metrics, such as standardized test scores and course grades. Qualitative data analysis utilized thematic coding to identify key themes, challenges, and recommendations emerging from interviews and observations.

Results and Discussion:

The results of the study indicated a positive impact of personalized learning on student engagement and academic performance. Quantitative analysis revealed significant improvements in student motivation, active participation, and achievement outcomes following the implementation of personalized learning interventions. Qualitative insights highlighted the importance of teacher support, technology integration, and personalized feedback in enhancing student learning experiences.

The discussion delved Into the implications of these findings for educational practice and policy-making. Recommendations were provided for optimizing personalized learning implementations, including ongoing professional development for educators, leveraging technology effectively, and fostering a culture of continuous improvement and reflection.

Conclusion:

In conclusion, this research paper contributes valuable insights into the impact of personalized learning on student engagement and academic performance. By combining quantitative analysis with qualitative perspectives, the study offers a comprehensive understanding of personalized learning's effects and identifies strategies for successful implementation. The findings underscore the potential of personalized learning to transform educational experiences and improve outcomes for all learners, paving the way for further research and innovation in student-centered pedagogies.

MAKTABGACHA TA’LIM TASHKILOTI TARBIYACHILARNING KASBIY TAYYORGARLIGIGA INNOVATSION YONDASHUVNI JORIY ETISH

Sulaymanova Maxbuba Alimjonovna
NamDU tayanch doktoranti
mahbubasulaymonova79@gmail.com

Annotatsiya. Ushbu maqola maktabgacha ta’lim tashkiloti tarbiyachilarning kasbiy tayyorgarligiga innovatsion yondashuvni joriy etish jarayonini ko'rib chiqadi. Innovatsion yondashuv pedagoglarning kasbiy mahoratini samarali rivojlantirishga qaratilgan zamonaviy o‘qitish uslublari va texnologiyalaridan foydalanishni nazarda tutadi. Maqolada faol va interaktiv ta’lim, muammoli ta’lim, raqamli ta’lim resurslaridan foydalanish va boshqalar kabi innovatsion ta’limning asosiy tamoyillari va usullari muhokama qilinadi. Tadqiqotda ta'lim jarayoni sifatini oshirish va bolalarning optimal rivojlanishini ta'minlash maqsadida maktabgacha ta'lim tashkilotlari pedagoglarini kasbiy tayyorlashda innovatsion usullarni muvaffaqiyatli joriy etish bo'yicha tavsiyalar berilgan.

Kalit so‘zlar: maktabgacha ta’lim, innovatsiya, mahorat, kasbiy tayyorgarlik, motivatsiya, ta’lim tehnologiyalari, metod.
